

Random Orbit Sander
BO6050 150mm

150mm Random Orbit Sander

Excellent
operability

OPTIONAL Accessories (not included)

Rubb

(hook & loop type)

Abrasive disc

(hook & loop type)

*For wood
*For multi-purposes

Size	Type	Part No.
130mm	Hard (For coarse sanding)	197315-5
	Soft (For general sanding)	197314-7
	Super Soft (For ne sanding)	197316-3
130mm	Hard (For polishing)	197317-1

Disc dia. (mm)	Grit	Per pkg.	Part No.
150	*WA40	10	794607-9
150	*WA60	10	794608-7
150	*WA80	10	794609-5
150	*WA120	10	794610-0
150	*WA180	10	794611-8
150	*WA240	10	794612-6
150	*WA400	10	794613-4
150	**60	50	B-39316
150	**120	100	B-39344
150	**240	100	B-39350

Wool pad

(Hook & loop type)

(For high gloss polishing)

Size (mm)	Part No.
150	796419-2

Felt pad

(Hook & loop type)

(For removing wax)

Size (mm)	Part No.
150	193288-0

Random Orbit Sander BO6050 150mm 325

Double Insulation	Double Insulation	Continuous rating input 750W
Variable Speed	Dust Collecting	Pad diameter 150mm
Constant Speed	Carrying Case	Abrasive disc diameter 150mm
Soft Start		Orbits per minute (opm) 1,600 - 6,800
		Orbit diameter 5.5mm
		Dimensions (L x W x H) 330x155x145mm
		Net weight* 2.6kg
		Power supply cord 2.5m

*weight according to EPTA-Procedure 01/2003

Ergonomically designed palm design with Soft grip

fits your palm perfectly to provide maximum comfort and control especially in horizontal applications and chamfering, while minimizing hand fatigue and pain.

Slim skirt
provides higher work efficiency in tight spaces.

BO6040

Change lever protection system
When the switch is slid to ON position, change lever is automatically locked for protection from damage caused by rotating armature.

Slim barrel grip

Constant speed control
minimizes reduction in rotation speed under load, increasing operation efficiency.

Variable speed control dial
located on the rear side for easier operation

Toolless pad change
enables quick pad change to suit application.

Pad protector
for protection of the machine, workpiece and operation when sanding in corners or tight spaces

New dust nozzle

- Located beneath the rear end of the machine to increase the maneuverability of the machine
- The outlet is corrugated to prevent front cuffs 24 from slipping off.
- Easy to attach and detach without tools

Connectable to Makita Vacuum cleaners

Two sanding modes

1. Random orbit mode

for finish sanding and buffing:
The motion of the pad is orbital action plus weak free-rotation, and can be stopped by exerting much hand pressure on the machine.

2. Roto-orbit mode

for coarse sanding and polishing:
The motion of the pad is a combination of orbital action and aggressive forced rotation.
