

# RP1800X 12.7mm Router

1 850W

Four Raised Ribs on upper side of motor housing

Enables router to be placed upside down when replacing accessories or not in use

Trigger Switch

Easily operable by the hand gripping the handle  
With a lock button for lock-on and lock-off functions

Templet Guide

Quickly installed / removed simply by pulling the lock plate

## Precision and Power

Ergonomically contoured knob style handles

Fits operator's hands perfectly providing easy handling and comfortable operation

Straight guide with Micro Adjustment

For fine adjustment to the nearest thousandth of a mm

## MAKITA ADVANTAGE

Increased durability obtained by using:

- # Larger size ball bearing on the drive-end of armature
- # Labyrinth type retainers and fan that prevents ingress of dust and dirt.

Linear ball bearing for super-smooth plunge action.

A linear ball bearing holds one of the plunge posts providing:

- # Smooth and accurate plunge without excessive play or tightness.
- # Easy one-hand plunge operation.

## Precision cutting depth adjustment

Cutting depth is adjustable in 0.1mm increments

Easy-to-read cutting depth scale

Quick depth setting button

## Stopper block

To obtain 3 different cutting depths.
